

Erbe VIO 50C

The VIO compact unit for surgical outpatient practices

The Erbe VIO 50C electrocautery unit meets all the requirements of electrocautery procedures in outpatient medical practices.

With monopolar cutting and monopolar and bipolar coagulation the Erbe VIO 50C can be integrated in MediTop ENT units and controlled by the ENT units' multi-functional footswitch. Individual programs can be stored as required.

Product code: 10140-550
Erbe VIO 50C

Benefits at a glance

- Intuitive operation
- Maximum CUT output 50 Watt
- Clear digital power display
- Configurable sockets (monopolar, bipolar, neutral)
- 2 Predefined programs (overwriteable)
- Easy control
- High quality construction
- Compact design
- Can be integrated in MediTop ENT units
- Controlled by multi-functional footswitch supplied with MediTop ENT units

Technical specifications

System voltage	100-120 / 220-240 Volt
Power frequency	50 / 60 Hz
Power input during stand-by	15 Watts
Power input during max RF output	[190 Watt / 200 VA]
Maximum CUT / COAG output	up to 50 watt
Width x Height x Depth	280 x 135 x 300 mm
Weight	4 kg
